Re-formatted and updated in July 2013, this is the best selling and controversial book on Denmark's Crown Princess Mary and her dysfunctional royal in-laws. This book made headlines around the world, when it was first published in Danish in 2007. This English version contains never before published information about Crown Prince Frederik's troubled childhood.

It also contains an apology to a senior member of the Danish Royal family!

Crown Princess Mary spoke out in support of those stores, who refused to sell this book.

This book is a cautionary tale for the likes of the Duchess of Cambridge, aka Kate Middleton, on how to make the transition from commoner to princess.

My new book, a royal novel titled QUEEN OF DECEPTION, will be available here on kindle on October 24th 2013.

A Travesty of Rubbish

By JONJORJ

When I downloaded this book from Kindle, I expected an interesting read, with perhaps some Quirky pieces. The Author thanks a friend for "meticulous proofreading"

One can only assume it was proofread by someone under the Influence of Alcohol and/or Drugs..

In the first few pages I ran out of counting the spelling mistakes. The Layout was dreadful. The Author writes as if all in the book was carefully researched.

Should Queen Margarethe ever be so unfortunate as to get a Copy of this book, she would have a fair Chance if she decided to sue for libel. I know Public Figures are fair game for the Press, But what did Queen Margarethe ever do to deserve ths travesty of rubbish. If it were possible to give no stars I would. I would also advise the Author to offer refunds to any poor soul who purchased it

Not as "meaty" as I expected!

By Yorkie

As this book created a lot of publicity (it was banned in many countries) when it was first published, I expected there to be a lot of information I had never read before. Unfortunately this is not the case. The only thing I didn't know was that it was Princess Alexandra and not Prince Joachim who was at fault in the break-up of their marriage. However, it is the first book or article on the Danish Royals that criticizes Mary for being "aloof" and more Royal than the Royals. I thoroughly agree with that opinion.

The editing was atrocious. An "L" was missing from every word that had a double "L". The name of each

chapter is inserted in inappropriate parts of a sentence as is the page numbers also. I don't know how this is tolerated by Amazon who I thought set such a high standard.

Lightweight gossip reading, horrible typos/formatting

By Kal

A lot of gossipy tidbits, but not much meat here. The author makes broad speculations about certain things, such as the some disappointment Queen Margrethe experienced in her marriage and the incident that supposedly broke up Prince Joachim's marriage, but she never elaborates or offers facts. She may have had her reasons -- no sources? fear of lawsuit or retribution? idle speculation? -- but it makes for a weak book.

The formatting is a mess -- it looks like someone scanned the print book and failed to clean up the copy. Page headers and numbers appear randomly in the middle of sentences, the letter "l" is missing from many words, and typos abound.
