Great Book

By S. Denise Stover

A great book. I have read it several times and shared with other friends then gave it to one friend. I continue to suggest it to others.

Surprise! This One Caught Me Right Between The Eyes

By Dean Mercado

Did you ever experience something that afterwards you felt you were destined to experience?

Well reading this book was one of those experiences for me. Now I am a fairly confident person or, at least I thought so prior to taking on this quick little read. However, what I learned was that my definition of confidence was only skimming the surface of what confidence really is and I never understood just how deep and extensive a reach confidence has on all aspects of our lives. I simply didn't give it that much thought. While I see my life as wonderful and I've accomplished a lot, it was no wonder why I felt certain areas of my life were not progressing to the degree that I felt they should be. Hmmm a confidence issue? I would have never believed it in a million years.

Anyway back to the book. The author does a masterful job at not only defining confidence but, then takes you down a path to help you identify your saboteurs and develop "true" confidence.

This book is definitely worth the read. It just may surprise you the way it did me.
