A Must Read! You Won't Regret This Series!

By Sharon Summers

This set includes the trilogy, along with the extra book titled, "Four". I actually recommend reading Four first. It's the comets set. My 13 year old triplet boys started reading this series in school. They couldn't stop talking about it, so I bought this series for them, and I even read it myself. It's very, very good. The movie is pretty good too; although, the books are a lot more detailed. I highly recommend this series. I would caution for younger readers as the two main characters have some heated moments. Nothing that heavy, but on the line. I wouldn't want my 8 year old reading something like that. I hope this review has been helpful for the parents out there. All in all.. Definitely a great series! A Must Read!

Good story-telling that also makes you think

By LifetimeStudent

We checked out Divergent from our local library for my grandson, but my daughter and I enjoyed it also. We definitely wanted to read the rest of the trilogy, so when I found this set that also includes the bonus book Four, I pre-ordered it. My daughter and grandson have finished the entire set and I am almost through Allegiant. I highly recommend this trilogy to any reader 13+ who enjoys science fiction, adventure, stories set in the future, or just plain old good story-telling that will also make you think. I would also recommend this as a good series for a family to read and discuss together.

Great to start, nosedive by the end

By Erika L. Zeller

This book series was a rather weird read for me, considering I have read and seen other dystopian movies and books such as The Hunger Games, and jumping into something like this definitely highlighted the cliches that run rampant in all of them. Despite all of this, I actually enjoyed the first two Divergent novels and I enjoyed the film when it came out. The first two books weren't entirely original, but they weren't bad either. I enjoyed reading them.

Allegiant is where things took a nosedive for me. The entire plot line of the outside the fence (which I won't spoil) didn't really feel like a good plot to me, in fact, it felt like Roth had another idea, but it was rejected, and she had to shoehorn a new one in. The ending wasn't great either, and to me felt a bit rushed and forced. This series gave me high hopes, until the third book. I have not read Four yet, nor do I plan to for a while, before I get over the fact that the series was great, until the end.

Overall - 3/5

Divergent - 4/5
