It can be the one that actually enjoy reading.

From Publishers Weekly

Elected the first black president of the Harvard Law Review, Obama was offered a book contract, but the intellectual journey he planned to recount became instead this poignant, probing memoir of an unusual life. Born in 1961 to a white American woman and a black Kenyan student, Obama was reared in Hawaii by his mother and her parents, his father having left for further study and a return home to Africa. So Obama's not-unhappy youth is nevertheless a lonely voyage to racial identity, tensions in school, struggling with black literature—with one month-long visit when he was 10 from his commanding father. After college, Obama became a community organizer in Chicago. He slowly found place and purpose among folks of similar hue but different memory, winning enough small victories to commit himself to the work—he's now a civil rights lawyer there. Before going to law school, he finally visited Kenya; with his father dead, he still confronted obligation and loss, and found wellsprings of love and attachment. Obama leaves some lingering questions—his mother is virtually absent—but still has written a resonant book. Photos not seen by PW. Author tour.

From Booklist

Obama argues with himself on almost every page of this lively autobiographical conversation. He gets you to agree with him, and then he brings in a counternarrative that seems just as convincing. Son of a white American mother and of a black Kenyan father whom he never knew, Obama grew up mainly in Hawaii. After college, he worked for three years as a community organizer on Chicago's South Side. Then, finally, he went to Kenya, to find the world of his dead father, his "authentic" self. Will the truth set you free, Obama asks? Or will it disappoint? Both, it seems. His search for himself as a black American is rooted in the particulars of his daily life; it also reads like a wry commentary about all of us. He dismisses stereotypes of the "tragic mulatto" and then shows how much we are all caught between messy contradictions and disparate communities. He discovers that Kenya has 400 different tribes, each of them with stereotypes of the others. Obama is candid about racism and poverty and corruption, in Chicago and in Kenya. Yet he does find community and authenticity, not in any romantic cliché, but with "honest, decent men and women who have attainable ambitions and the determination to see them through." Hazel Rochman

Review

"Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus

belonging to neither.”

—New York Times Book Review

“Fluidly, calmly, insightfully, Obama guides us straight to the intersection of the most serious questions of identity, class, and race.”

—Washington Post Book World

“Beautifully crafted . . . moving and candid . . . this book belongs on the shelf beside works like James McBride’s *The Color of Water* and Gregory Howard Williams’s *Life on the Color Line* as a tale of living astride America’s racial categories.” —Scott Turow

“Obama’s writing is incisive yet forgiving. This is a book worth savoring.”

—Alex Kotlowitz, author of *There Are No Children Here*

# **DREAMS FROM MY FATHER: A STORY OF RACE AND INHERITANCE BY BARACK OBAMA PDF**

In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother’s family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father’s life, and at last reconciles his divided inheritance.

Pictured in lefthand photograph on cover: Habiba Akumu Hussein and Barack Obama, Sr. (President Obama's paternal grandmother and his father as a young boy). Pictured in righthand photograph on cover: Stanley Dunham and Ann Dunham (President Obama's maternal grandfather and his mother as a young girl).

Caveat Emptor - Dreams From My Father

By Carole Rafferty

Be careful what you order. There are two editions of this book; the 1995 edition and the revised 2004 edition. Note that the 2nd edition lists the 1995 printing first, but that not be what you get. I spent \$115 hoping to get the rare, first edition, which supposedly has photos and different text. Instead, I got a hardcover version of the 2004 revised printing. Since the 1995 book was published when Obama was still a relative nobody it stands to reason the first edition had a limited circulation. Don't order the book unless you can see a picture of the cover. If it looks like the 2004 paperback, then it's not the 1st edition.

... book and learned a lot about his lack of good Father attention

By Constance Gaines

Read all of the book and learned a lot about his lack of good Father attention. A lesson for any child without a parent around that you make your own decisions in life and your own future. He did have a wild side in his

teen years and could have gone a different direction entirely. Applaud people of Hawaii that saw a young man with future potential and invested in him. Credit also to his grandparents for assisting in his raising. No matter what so many say I think he has been a good president at large and has the demeanor and temperament and intelligence to be our American President. Thank You Barack. :-)

Simply love this book

By Lesly Lopez

Simply love this book! I have a high admiration for our current President, Obama and reading about his childhood, his struggles as a color child in mix family, his missing father and the impact his parents marriage had on the way he perceives is very interesting. I can definitely understand better his life now, and why he got so far and became the most important man in the world!
