It's practically a pamphlet, but has masterpiece written all over it...

I bought this as reading material for a yearlong research project on Langston Hughes for school. I skimmed past the technical details of this product and was shocked to find that it's actually a VERY slim book, almost a bound pamphlet, like I said above. Nonetheless, I love Langston Hughes's work and some of his best poems appear in here, making it ideal for space-saving quick reading or a refresher on family values, identity, etc. It's a fantastic compilation of Hughes's ideas, talent and spirit.
