The Perfect Parenting Book

By A Customer

This book was one of 13 that I read in desperation, and it was the only one that helped me with my very hard to handle son. Mr. Dobson helped me realize that parenting is NOT a breeze, it is not joyful or as wonderful as everybody else says, it is the most difficult challenge of my entire life. I received the sympathy I needed and I realize that parenting today is too permissive, thus we are raising brats. His guidelines make a lot of

sense, and the generations before us didn't have the problems that kids have today. Why? Because there was discipline back then. Today, parents are afraid to set limits and discipline their kids. I feel so much better after reading this book, I know I am not alone.

A must-read for parents of stubborn or strong-willed child!

By A Customer

We've all witnessed the frustrated, harrassed mother battling with her stong-willed child. We've all seen, at one time or another, this same mother (or others like her) losing that battle of wills. We may be that mother, embarrassed by a temper tantrum in public, giving in just to avoid further scrutiny by stangers witnessing our attempts to control a child who absolutely WILL have his/her own way! I am the mother of one of these beautiful, sweet, creative, funny, delightful, stubborn, maddening, bratty, hard-as-nails children. Even if you are not an active, practicing Christian, even if you don't listen to "Focus on the Family", you will gain priceless information and helpful tips about your hard-to-control child. Dr. Dobson mixes clinical research with heart-warming stories, helpful hints, and for those that are interested, solid Biblical principles in an easy-to-read text that should claim a place in the library of every family. He also gives excellent advice for integration of this strong-willed child with the compliant children in the family. I have one of each, and Dr. Dobson revealed to me ways to control one without smothering or ignoring the other. My children didn't come with instruction manuals; Dr. Dobson is a gem to share the how-to's for "operating this delicate piece of machinery": parenthood

Classic work

By Curtis A. Cecil

Dr. Dobson has been a strong voice in helping uplift and train children and parents.

This book is a fun and easy look at the stresses and other conflicts of being a parent and helps give practical insight on how to overcome them.

If you are a new parent or a discouraged parent this is a great book to read through.

It does hlep you to see that YOU CAN DO IT!!
