More than thirty years after his first investigation of the Nazi underground Peter Levenda has returned again and again to his quest for the truth about the true character of the Nazi cult and the people and political movements it has influenced in the decades since the end of World War II.

The wide sweep of this investigation moves from a Ku Klux Klan headquarters in Reading, Pennsylvania to the New York City office of the Palestine Liberation Organization; from the apartment of a notorious neo-Nazi leader to an Islamic boarding school--headquarters of the man who ordered the Bali Bombings. When Levenda uncovered the existence of a Nazi underworld in Asia, the nexus of religion, politics, terrorism and occult beliefs was revealed to be the real domain of the threat to global security.

Meticulously researched--from both archival material and declassified intelligence agency files, to personal interviews and investigations undertaken in Asia, Europe and Latin America--The Hitler Legacy is the story of how the mistakes of the 20th century have come home to roost in the 21st.

This book will challenge the conventional thinking about such subjects as the Muslim Brotherhood and Islamist terrorism and even about the alleged death of one of history's most infamous killers--Adolf Hitler.

as I just recently wrote on Amazon.de (I bought this book in Germany because I live there) this has to be one of the most bone-chilling books I've ever read;

it would be of help to first read Levenda's "Ratline" (let alone his "Unholy Alliance") in order to completely comprehend the immense scope of this book but it's not a requirement; this book stands on its own;

and Levenda's research dove-tails perfectly with the research/books of Dr. Joseph Farrell; as Levenda once stated about Farrell: "we both toil in the same vineyards"-

if one is interested in this subject this is an absolute 'must'-

extremely highly recommended on my part-

(P.S.: can't wait to read following, negatively disparaging reviews of this book from skills)

The fear of Communism in the aftermath of WW2 often led to the same irony : brutal suppression of human rights and sinister Government takeovers. Mr. Levenda's study is well written and ..well sourced leaving with the

idea that there is much more to be revealed about this sordid chapter in History...highly recommended.

By Jo-Anne Phillips

It is abundantly clear that the real story of WWII has never been told. Here is a possible version of history that is as much about our current predicament as it is about our hidden history. This is a good place to begin to understand what's really been going on in our world and what needs to happen if we're to ever regain our freedom and hope.
