THE THERAPEUTIC COMMUNITY: THEORY, MODEL, AND METHOD BY GEORGE DE LEON PHD PDF

This volume provides a comprehensive review of the essentials of the Therapeutic Community (TC) theory and its practical "whole person" approach to the treatment of substance abuse disorders and related problems. Part I outlines the perspective of the traditional views of the substance abuse disorder, the substance abuser, and the basic components of this approach. Part II explains the organizational structure of the TC, its work components, and the role of residents and staff.

The chapters in Part III describe the essential activities of TC life that relate most directly to the recovery process and the goals of rehabilitation. The final part outlines how individuals change in the TC behaviorally, cognitively, and emotionally. This is an invaluable resource for all addictions professionals and students.

The Gospel according to ...

By Joseph Tandi

George De Leon's book is the textbook for creating and managing therapeutic communities which provide the environment in which addicts can effect the changes that will enable them to build the foundation for managing the risk of relapse for the rest of their lives successfully. I work in such a community and there is no better record and description of the complex factors that come together to make this special setting effective.
