A "must have" for anyone interested in doing their own repairs on a classic VW.

By Amazon Customer

Excellent book. A bit soiled on some pages but I suppose that's to be expected with a used auto repair manual. Very good pictures and detailed instructions. It arrived quickly. Overall I'm satisfied with my purchase.

not bentleys best effort

By Osorio Batres Silvia Rebeca

IT is a very good manual but not up to the calibre of bentleys other manuals. Some things are hardly covered at all for example the carburetor system or scirocco wiring for different models.

Only the best

By Jonathan T. Wills

Bentley is the best for VWs. Has it all and still relatively easy to read and follow steps. Could have more and clearer pictures for us who need visuals.
