Excellent nostalgia trip, and it leaves me wanting MORE!

By Charlie Meister

This book is amazing on all accounts. It collects the Voltron 4 issue mini-series, as well as the 12 issues in the ongoing series that followed (issue 12 is available in this book for the first time ever). I bought this book site unseen just wanting to get my hands on some cool Voltron stuff and wow was I impressed! I didn't necessarily need them to re-tell the whole origin story again, but it worked for me. It felt like they were telling this tale to a teenage+ age group, unlike how we originally got the edited version of GoLion as Voltron in the 80's! The art is really good through most of this book, it looks like they went with some cheaper artists towards the very end, but altogether, this is a great buy. I still want MORE though. Hopefully with a movie looming in the near future, we will get more things Voltron to come!

Pretty, but annoying printing errors

By Fool For Love

I enjoyed the comics. The comics had much of what was cool about the show, while jettisoning some of the cheesiest elements. (Nanny is nowhere to be seen.)

On the down side, some of the pages are out of order, which the publisher has acknowledged, leading to some confusing sequences. :(It wrecks some of the coolest parts of the story.

This was awesome!

By Karla

I absolutely loved it. As some reviewers stated, the art does get a bit more cheap as you read along, but overall, I think it was a great purchase. The seller was wonderful as well. He left all his contact information

in case I had questions or concerns. I was very happy!
