## Review

"It is the most readable and reliable account of classical yoga that I know. There are, of course, numerous secondary works on yoga, many of which are useful and some of which have considerable scientific value. There are few good editions of the actual primary sources, however, and Hariharananda's is one of those." -- Gerald J. Larson, Professor of Philosophy, University of California, Santa Barbara

The Yoga Sutras of Patanjali are universally acknowledged as the fundamental text on yoga and meditation in the Indian classical tradition. This English translation of Yoga Philosophy of Patanjali is widely regarded as the most authoritative and authentic that has been available in recent times. It is a serious and clear presentation of Patanjali's sutras and Vyasa's Bhasya, providing these basic texts both in the original Sanskrit and in readable and accurate English. These classical works are augmented by the commentary of Swami Hariharananda Aranya, a scholar and yogi of great repute, who, in his lifetime, was the foremost exponent in India of the Samkhya Yoga system of which the Yoga Aphorisms of Patanjali are the principal work.

## Patanjali's Sutras Maximum Explanation

By Terry Burka

No conflicts here, especially since so many Patanjali authors conflict with each other. Swami Hariharananda is the real deal, no faking, no puffery, no pretending, not a new age guru who just learns the words, like so so many. Truly and inspiration. No conflicts with Maharishi Mahesh Yogi, also Self-realized. You just cant fake this stuff, and SHH authors the strongest Patanjali book in the world. For very similar information, and the Sutras taken from gross to subtle, from creation to pure consciousness, using SHH's book, please also see The Meditation Manual for Seekers.
